

AKP continues to spill blood

You are the experts in killing people!

Another massacre has been added today in Ankara to the imperialist, Zionist and obscurant bloodshed all over Middle East.

The triggermen being the murderers of hundred thousands of people in the war in Syria have been harboured under AKP government by fleeing through the Turkish border.

Right at this point, enemies of people, fundamentalists and racists are killing hundreds of people in seconds by explosions.

While the remnants of Islamic State's murderous gangs are being harbored in the cities of Turkey by the Turkish police forces, the gang in power, sharia follower AKP, has been attacking with their fear of defeat.

They are experts in killing people!

However we know best how to cherish life.

This is our promise to our people who have been the target of today's massacre in Ankara:

We will rip off the forces of counterrevolution which has been established within the vital parts of our country like a tumour.

We express our deepest condolences with the comrades, friends and relatives of the ones who we've lost today.
